

Wanted to let you know that we have been used lot of VRS and we use so much as we value VRS and the empowering impact it has on our daily life. It is really worth for us to keep that VRS and everyone does too. Please keep everyone with this VRS and it's really very impact with communicating with sign languages via TV screen - more easier than just typing all the sentences - could be misunderstand - or not right sentences. We love using VRS - more easier to sign ASL and interpreter could understand us.

Keep this VRS STuffs for us and deaf/HH people.

Thank You!  
Jody Gertken
